#### Shipping options.

For small orders (with weight up to 2 kg) we usually use certified airmail.

For bigger orders we usually pack them within boxes of 8-12 kg weight each box, we can send the boxes with different shipping options, depending on the request of buyer.

1) Certified land/sea mail, the price is around to US \$6-9 per kg, depending on exact weight of order and destination country. It's a cheapest option, but slowest one. Upon sending of order, we provide code similar to CA111111111RU, the shipping status possible to check online on the website of Russian post and also on websites of post of some different countries (including USA, Canada, Spain, etc). Shipping may take up to 2-3 months, but often the orders arrive faster (within 1-2 months). Unless you are in hurry to receive order, this option is recommended for big orders.

2) Certified air mail, the price is around to US \$10-20 per kg, depending on exact weight of order and destination country. This shipping option is visible more expensive than land/sea mail, but usually (not always) it works faster. Most of the orders arrive within 2-3 weeks; delays are possible, but not common. The same as for land/sea mail, we will provide you code for shipping similar to CA11111111RU.

3) EMS. Declared shipping time 10-15 days, usually orders arrive within this timeframe. But in the same time shipping time is not guaranteed. Considering high shipping price, this option is possible, but usually it's not recommended. Similar situation occurs with FEDEX, DHL, UPS and other express mail services.

4) You pay us products price only, and then you schedule delivery with your shipping service. Option is available for the orders with value starting from US \$1000.
